Our Highlights of 2016

2016 has been another year full of great restoration projects; one of our highlights has to be the restoration carried out on this fantastic rock crystal chandelier from the State Dining Room of Warwick Castle. We re-installed this historic chandelier back in May following a thorough clean and electrification. Follow this link to our website to read more details about the restoration: wilkinson-plc.com/warwick-castle-chandelier

This past year we have also had the pleasure of having some great articles written about Wilkinson Plc. In February we had a wonderful feature in the Financial Times.

This great feature was written by Jonathan Foyle who has worked with Wilkinson's on many occasions. The feature spoke about the history of glass and chandeliers as well as the history of our company.

If you missed the article or would like to have another read you can find it on the news section of our website:

Upcoming for 2017 – Celebrating our 70 years

This year we will be celebrating our 70th year. R Wilkinson & Son was founded in 1947 later changing to Wilkinson PLC in 1991. Although the name may have changed, the business retained the guidelines and techniques established by the earlier generations. Keep an eye out this year for our full anniversary feature.

Don't Miss us on "How Do They Do It?" - Discovery Channel on Friday 27th January at 10pm
