Newsletter –November 2013

Interesting Fact – The title of the World’s largest chandelier has always been highly sought after and now there is a new holder. The Guinness World Record belongs to the Ali Bin Khalifa Al Hitmi & Co building located in Doha, Qatar. Designed by Scottish based Beau McClellan, the chandelier, named Reflective Flow, took two years to complete. With 2,300 individually hand-cut crystals, it measures 19ft high, 41ft wide, and 126ft long, weighing 18,000 kg and consisting of 165, 000 LED units.

Christmas Cleaning

If you would like your chandeliers to have that extra sparkle for the Christmas period make sure that you get your Christmas clean booked in soon, as we can become very busy over the months of November and December.

Also if you have a chipped or broken glass that you need to complete your set, we can also repair these for you ready for your Christmas meal.

Titchmarsh & Goodwin

Highly skilled wooden furniture producers Titchmarsh and Goodwin are embarking on a new venture, opening a showroom on London’s King’s Road. We were honoured to be asked to produce two chandeliers for their store, one six and one eight arm chandelier featured cut hurricane shades and rope twist arms

With the unique feature of having blue pans and a wooden receiver bowl the chandeliers are certainly identifiable, as too are the pair of adapted reproduction Osler and Faraday wall lights, the 2 branch brass fixtures, substituted the metal pans for blue crystal alternatives with matching drops and wax candles.

These chandeliers are part of an exclusive range available through Titchmarsh and Goodwin – www.titchmarsh-goodwin.co.uk

St Georges Church

Wilkinson’s installed a magnificent 17th century Dutch brass chandelier in the refurbished St Georges Church in Bloomsbury, London. Scrolled arms hold 36 lights and it weighs over 700kg measuring 2.8 metres in height and over 2 metres wide at its core.

You can see a video of its installation on our website, a full day’s work in less than 4 minutes!
